John O’Keefe, McVAC Program Manager – Turnkey Projects, offered, “a benefit McVAC provides its railroad contractor clientele is sharing our experiences of efficiently handling the environmental aspects unique to these larger scale project sites, including the cradle-to-grave management of what is often an array of waste streams generated during construction. Our team sharing this knowledge certainly benefits contractors, and owners.”

McVAC continues to provide a variety of services at the Amtrak Penn Coach Yard project in Philadelphia, PA.
